INSTRUCTIONS:

1. Using the lightest **Dual Brush Pen** colors, basecoat in the colors to the motifs and some of the details. Layer the colors to create new hues.
2. Using the **Irojiten Colored Pencils**, color in the details in the mushroom caps and snails. Shade down both sides of the mushroom stems to create interest. Blend the edges softly with the **Colored Pencil Eraser**.
3. Using the **D-10 Irojiten Pencil**, shade all the mushrooms and the snails in the background and under the mushroom caps. To bring back the highlights in the stems, use the **Color Pencil Eraser**. This dark shading with one color gives dimension and balance to your coloring.
