

# Tombow Sparkle & Bling Ornaments

By: Marie Browning

## Materials

- Dual Brush Pens
- MONO Aqua Glue
- Power Tabs
- Foam Tabs
- Stamp Runner Dot Pattern Adhesive

Started by trimming the background paper and the vintage image for the center. Then, use the [Dual Brush Pens](#) to quickly color the snowflakes and covered them with [MONO Aqua Liquid Glue](#) using broad applicator tip. First, place in the rhinestones and then sprinkled them with *ice chips shard glass glitter*. Then, trimmed the vintage bird image with *silver shard glass glitter* and Aqua Glue using the fine applicator tip.

When the glue is dry, put the ornament together with [Power Tabs](#) and [Foam Tabs](#), sandwiching a piece of silver wire threaded with heart charms and crystal beads between the paper panels for the hanger.

For a finishing touch, add silver bullion wire bows (also called crinkle wire) for an extra sparkle.

If you are planning to send these ornaments as cards for Christmas, add a paper panel on the back of each ornament with your holiday greetings, wrap it in tissue and custom-make an envelope with matching cardstock with the new Envelope Punch Board from [We R Memory Keepers](#).

The [Dot Adhesive Stamp Runner](#) is perfect to use with the Envelope Punch Board! It's fast and easy to apply a line of adhesive when constructing the envelope and for adding smaller paper embellishments on the front with the stamp feature. A great stocking stuffer for all your crafty friends!

Cardstock from [Fancy Pants](#)  
Vintage bird image from [Crafty Secrets](#)  
Glitter from [Art Glitter](#)  
Snowflake chipboard from [Bazzill](#)
