Directions

1. On wax paper, scribble the green and purple brush markers using the large brush point. Spritz a little water onto the colors to make them blend slightly. Lay the paper sack down into the color and press. Lift and lay face up to dry. Repeat with all the sacks.
2. Place the spider stickers onto the front of the sacks. Use the photo of the samples for placement. *Hint: The stickers are easier to lift off the sheet with a pair of tweezers.*
3. With the black Brush Marker, add spider silk to hang the spiders and the lined boarder.
4. With the gray Brush Marker, add the shadows to the spiders and webs.
5. Place the treat into the bag and fold over the top. Bend a chenille stem (12 in for large bag, 9 in for small bag) into a U shape and staple to the top of the bag.
6. Add a piece of the feathery boa (3 1/2 in for small bag, 4 1/2 in for large bag) to the top of the bag using the adhesive tape.
7. Finish the bag by gluing in two wiggle eyes to the boa with the Multi liquid glue.
